RCRA/DOT Hazardous Training

RCRA COMPLIANCE FOR HAZARDOUS WASTE GENERATORS OVERVIEW

This RCRA compliance course is designed for large and small quantity generators. The Resource Conservation and Recovery Act (RCRA) requires that facility personnel be trained to "perform their duties in a way that ensures the facility's compliance" with hazardous waste regulations.

DOT HAZMAT TRANSPORTATION OVERVIEW

Comprehensive training for shippers, handlers & transporters. Students are updated with regulatory changes and are given training in the use and application of the 49 CFR manual. Are you meeting hazmat training requirements? Every employee involved in shipping, transporting, or handling hazardous materials must receive training to be certified; the training must be repeated at least every 36 months; and the training must be updated whenever there is a regulation change affecting an employee's job duties. All employees must be trained in hazmat compliance before performing hazmat activities in the workplace. This course will also provide train-the-trainer basics

WHO SHOULD ATTEND

All employees who are responsible for hazmat employee training; preparing/signing shipping papers; placarding; security; marking and labeling; packaging; loading and unloading of vehicles; and other activities that are regulated under the DOT hazmat regulations.
